National Economic Council

Monica.J.Gorman@who.eop.gov

Manufacturing USA: 10 Year Vision

Discussion with institute directors and staff to gather input on the future of the Manufacturing USA network.

Moderator: Don Ufford, Office of Management and Budget / Advanced Manufacturing National Program Office

Slido Discussion Questions

1. What advanced manufacturing challenges have we solved in 10 years, and what have we learned about organizations and processes to solve the challenges?
2. What is your blue-sky vision of what an Institute might be in 5 – 10 years? The network in 5 – 10 years?
3. In 10 years, what do we see as a healthy relationship with international networks and/or regional partners?
4. In a desired future state, what would be ideal institute funding (federal and non-federal) and ideal ways of identifying new national opportunities and delivering impact?
5. What does a better-functioning network look and feel like in 5 and 10 years?
6. What two concepts did the previous speakers say that you think will be the most challenging for our network? Share one word for each concept.
