

Manufacturing USA Student Award Nomination Application

Thank you for your interest in the Manufacturing USA Awards. Award recipients will be honored live during the worldwide livestream of the FabLab Science & Innovation Awards in Santa Monica, California on November 18, 2017.

Manufacturing USA wants to honor the best and brightest minds by recognizing innovation and excellence in manufacturing. Award submissions can be advanced manufacturing technologies like those supported by [Manufacturing USA](#), or in other manufacturing areas. All fully developed projects, products, techniques, or processes that advance manufacturing are welcome. We want to see what solutions you are creating and how you are using manufacturing to solve current and future problems.

Nominations are open to students of any age currently enrolled in grades 6-12, an accredited technical school, community or junior college, four-year college, or university at either the undergraduate or graduate level.

Nominees will fall in one of three categories:

- Individual male
- Individual female
- Team project

Please note: Projects must be fully completed at time of nomination. Partially completed projects will not be considered.

Any organization (academic, trade, industry, or government) or individual (fellow teachers, advisors, mentees, and/or students) may submit a nomination. Students are welcome to nominate themselves.

Please fill out the following fields to complete the nomination form. If any required fields are not completed, the nomination will not be considered. Required fields are indicated by an asterisk. If you have any questions please contact FabLabNominations@gmail.com.
